

ACTIVITIES	MILESTONES	VALUE (USD)
Start date of investment	March 2024	-
Scheduled completion date	Q2 2026	-
Construction period	2024-2026	~26,000,000
Research equipment acquisition	2025-2026	~15,000,000

MAIN TOPICS
Software and Hardware Solutions & Technologies for AI
Intelligent & Autonomous Systems
Microelectronics
Intelligent Applications in Cybersecurity & Space
Robotics and IoT
Medical Technologies

BUILDING PARAMETERS			
Footprint	2,028m ²	Researchers	380+
Built area	11,000 m ²	Labs	30+
Structure	2U + G + 5L + R	Support rooms	10+
EQUIPMENT			
1	DGX Super POD with DGX H200		
2	Data Center of 256 GPU		
3	Software/hardware development systems		
4	Robot/drone/automated vehicle components
